THANK YOU FOR YOUR BUSINESS SINCE 1985!!!

The Story of Bimini's Oyster Bar & Seafood Restaurant

The quest for the perfect oyster, a casual island restaurant atmosphere, an ice cold beer, sweet and spicy shrimp, and fresh local fish, finally ended for the creators for the future Bimini's Oyster Bar. The search had taken them to the Florida Keys and throughout the Caribbean islands. There were aspects of many restaurants and cafés they had seen that appealed to them, but they knew that none should be copied. So, they created their own unique place. . . Bimini's Oyster Bar & Seafood Cafe, born in 1985.

The desire of the owners was to bring to Myrtle Beach the taste and feel of the islands. The laidback atmosphere quickly brought locals and visitors to Bimini's to sample the freshest shellfish and fish, and to encounter the best service to be found on the beach. Add the sounds of Jimmy Buffett, island reggae, beach music of course, and you have not just a restaurant but the Bimini's experience.

Bimini's Oyster Bar & Seafood Cafe prides itself on serving only the freshest fish and shellfish that can be purchased locally or in eastern coastal waters. Our menu items are prepared to order and served immediately. We try to serve the entire food order at one time but will not hold an item on the counter trying to keep it warm until the rest of the order is ready. Serving you high quality, hot food in a prompt and courteous manner is our ultimate objective. For the comfort of our customers, we ask that cigars not be smoked. To our guests who may have weak immune problems, we strongly recommend that uncooked shellfish not be eaten.
